

Public Relations and Marketing Services

WHAT WE DO

Experience Communications develops and executes public relations and marketing communications strategies and tactics to bring clients' messages and product offerings to market.

HOW WE'RE DIFFERENT

Experience works with clients to set specific goals and drive results that align with business objectives. Based on the needs of the client, our services span the ability to provide comprehensive public relations and marketing programs - while maintaining the flexibility to step in and assume the responsibility for a specific project or initiative.

OUR EXPERIENCE

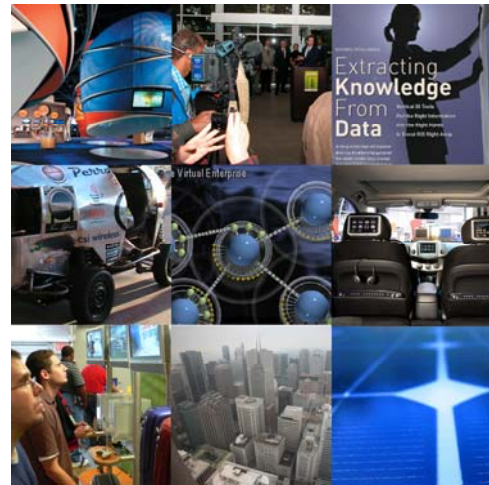

Experience has been developing impactful and lasting integrated public relations and marketing communications programs for companies of all shapes and sizes. Clients include: Clearwater Analytics, Confio, Digital Delivery Networks, Fair Isaac Corporation, Hyperion, ILOG, Ipedo, Kaidara Software, Lansmont, Leverage Software, Micron, Microsoft, Nomis Solutions, PricewaterhouseCoopers, ProClarity, Provenir, Seagate, Sempra Energy, Tenneco Automotive, The Shugart Scholarship Fund, TriAccess Technologies, Ventana Research, Venture Capital in the Rockies, and WebLOQ.

ABOUT EXPERIENCE COMMUNICATIONS

Experience Communications is a public relations and marketing communications agency that increases the value and improves the perception of company's brands, products and services. The company creates public relations and marketing programs that best align its client's business objectives and marketing goals to impact sales, generate company momentum and enhance shareholder value.

WHAT OUR SERVICES ARE

Experience develops and implements unique programs that transcend every marketing touch point, spanning from the management of a company's web presence to interactive events that foster a personalized brand experience. We custom build programs to meet client needs and offer a complete portfolio of integrated marketing and public relations services.
